Country Living Barefoot launch at Cotswold Farm Park with Louise Pearce (Editor-in-chief, Country Living), Adam Henson (BBC Countryfile Presenter and Owner of Cotswold Farm Park), Cathy Chamberlain and Ben Matthews.

## The Barefoot Story

After a wet weekend camping, Cathy Chamberlain decided that she wanted a stylish and cosy caravan to take her on adventures, but with a shower, a toilet and some luxury! It had to be compact, cool and easy to tow.

She quickly teamed up with fiberglass experts Ben Matthews and Mike Williams of Cotswolds based Watsonian Sidecars (established for over 110 years) and the team developed arguably the world's coolest caravan. The iconic Barefoot shape and carefully crafted features offer unparalleled British manufacturing and engineering.

Since creation in 2012, Barefoot Caravans have been an international success with sales throughout the UK, Europe, North America and Australasia.

Barefoot Caravans have been widely acclaimed in TV appearances (including George Clarke's Amazing Spaces, BBC World News and This Morning), and featured in many national newspapers, magazine features and industry reviews.

In 2024, Barefoot launched a highly successful collaboration with Country Living who created two unique styles, 'Daisy' and 'Ferne', detailed on page 10. Most recently the Barefoot Bothy has been launched adding a fun, three berth camper to the range.

## A Barefoot to suit your style

We have six Barefoot models for you to choose from: Classic (p7), Forward (p8), Eclipse (p9), Country Living (p10-11), Lite (p14) and the new Barefoot Bothy (p13).

All of our Barefoot Caravans benefit from a huge range of upholstery choices in vinyl, wool and fabric and a beautiful collection of curtain fabrics.

Add to that a great choice of lighting, flooring, side graphics and your choice of colour of Roberts Revival Radio and you have a really special caravan.

## BareFoot Classic

Barefoot Classic has a homely feel with a cream interior and solid oak worktops. A beautiful selection of upholstery and Karndeian flooring, alongside a duck egg blue bathroom, complete this soft and classic look.

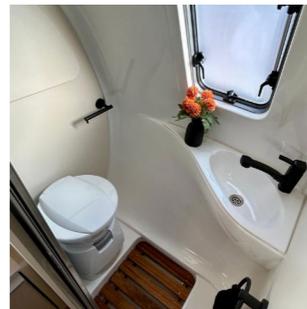

# BareFoot Forward

The Barefoot Forward has a contemporary twist with white acrylic worktops, pale grey units, a white fibreglass table and kitchen cubby. 'Aged oak' flooring, a rich Tyrolean blue bathroom and striped graphics complete the look.

# BareFoot Eclipse

Our popular Black Edition comes complete with Union Jack graphics and our very own 'tow faster' stripes. There is an option of a black bike rack to match which will carry two electric bikes. Inside there are cream units and walls, including the bathroom, with black accents, taps and trims. The sea grass effect floor and 'Ace' curtains from the Stripes Company create a beautiful cosy feel. We celebrate our British heritage in this product.

# COUNTRY LIVING x BareFoot

In collaboration with the style and editorial team at Country Living Magazine, we have created two gorgeous Barefoot Caravans named 'Daisy' and 'Ferne'. Both have the subtle Northwick green body shell, named after our Cotswold base. Solid oak worktops, cream units, honey limed oak flooring and a duck egg blue bathroom create a warm and homely interior feel.

## Daisy

Daisy has Ochre Ticking Striped Fabric by Ian Mankin, Oak Leaf Curtains and a gold corner cubby and table to match. This is the sunniest Barefoot you could imagine, certain to make you smile!

## Ferne

Ferne has Apple Green vinyl seats trimmed with cream piping, and Palma Sol Curtains by Zoe Glencross. The curved fiberglass table and cubby are in cream, giving Ferne a relaxed country feel.

# BareFoot Bothy

The new three berth Barefoot Bothy provides an uplifting and cosy space for adventures near and far. Exceptionally comfortable for lounging, eating and sleeping, with heaps of storage, a versatile layout and Karndean Dutch Limed Oak flooring.

New for  
2026!

The kitchen has solid oak worktops, cream cupboards, a sink and 12/230v cool box. Under seat storage, cargo nets, magazine racks, clothes hooks, fly screens, black out blinds and USB ports in the spotlights make this a practical and fun camper. There are three comfortable beds (one can be made into a double) and Porta Potti is stored under the rear seat.

The Bothy comes in a full range of interior and exterior colours and finishes. The walls are lined with a soft carpet throughout in silver grey or wheat.

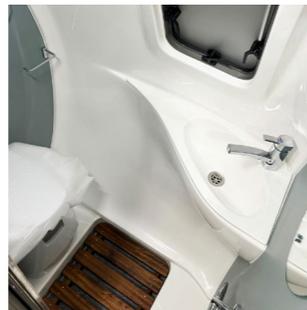

The leisure battery, electrics kit and solar socket enable you to enjoy Barefooting on a site or out in the wilds. There is an optional gas upgrade too.

Aerodynamic and extremely lightweight, the Barefoot Bothy can be towed by most small cars and EV's and appeals to families and solo travellers alike.

It's very competitively priced with budget and quality in mind.
